

**PROJECT PROPOSAL 2005/06**  
**“HELPING TO CREATE MORE EMPLOYMENT THROUGH**  
**LOCAL INVESTMENT”**

**Introduction**

The project will be implemented for two years. It will have a programme of activities that will coincide with our chosen theme. The activities will provide the participants with more information about employment.

With the collaboration of the Ministry of Employment we would like to make some of the job seekers wishes come true; that is to have a permanent job, which is in their interest.

To make this project a success it will depend on the job placement and employer that will be training the participants. Before the project begins we will be meeting the partners and the participants in a general meeting. The meeting will be held every three months.

**Objectives**

- Gather a group of 15 unemployed youths and work with them
- Give them the necessary training and guidance
- Put them on job training
- Involve them in workshops, debates and sessions

**Aims**

Our aim is that at the end of the training programme the participant is qualified and guaranteed a job placement. They will be awarded a certificate of participation and we will try and make sure that what they have learnt in the sessions, workshops and debates, will be put it into practice.

## **Budget / Programme of activities**

Please see the attached.

## **Conclusion**

We think that this is a very good project, as at the end we are going to make sure that those participants have a permanent job.

To achieve our objectives we will need the full support of the participants and their employers.

A monthly visit would be done and every three months there will be an appraisal done by the employer. Regular meetings will also be organized with the participants and their employer.
