

## **Appendix 6: Mapping of donor assistance by thematic areas and country**

In order to support an international strategy for Education for All (EFA), it is useful to know how multilateral, bilateral, and non-governmental organizations and agencies are supporting the implementation of EFA action plans in nations requiring assistance. A plan to gather this information was initiated in January 2002. Using *The Dakar Framework for Action*, a matrix was developed to highlight efforts directed at specific EFA goals. A preliminary group of 23 agencies/organizations were asked to provide information; 22 have responded to date.

This Appendix presents two summary matrices:

- i) Summary of International Assistance for EFA by Thematic Areas
- ii) Summary of International Assistance for EFA by Organization/Agency

The complete matrix document, *EFA Donor and International Organization Assistance: Multilateral Donors, Bilateral Donors, and Non-Governmental Organizations*, provides details for all countries regarding both thematic areas and international organization/agency support. It can serve as a basic directory of international support for EFA from multilateral donors, bilateral donors, and non-governmental organizations. While information was not gathered on levels of financing, duration of efforts and level of priority for support, a preliminary understanding of gaps in support to national EFA efforts in countries requiring assistance can be extracted from these matrices.

These charts will serve to stimulate interest in further analysis of the volume and nature of assistance from different multilateral and bilateral sources, and to explore possible avenues of strengthening cooperation among countries and the donor community.
