## Sub-Saharan Africa's Education Challenge

Out-of-school children  
(millions),  
% male/female

Notes: Bubble size represents the number of out-of-school children. Primary enrolment is the proportion of primary school-age children enrolled in primary school.

The number of girls per 100 boys in school is the gross enrolment ratio for girls relative to that of boys. Data are for 2007, except for Chad and the Democratic Republic of the Congo, which are estimates.
