MEMORANDUM OF UNDERSTANDING

BETWEEN

INTERNATIONAL BANK FOR RECONSTRUCTION AND DEVELOPMENT
AND
INTERNATIONAL DEVELOPMENT ASSOCIATION

AND

UNITED NATIONS EDUCATIONAL, SCIENTIFIC AND
CULTURAL ORGANIZATION
The purpose of this Memorandum of Understanding (“Memorandum”) between the International Bank for Reconstruction and Development (“IBRD”) and the International Development Association (“IDA”), (together, the “World Bank”) and the United Nations Educational, Scientific and Cultural Organization (“UNESCO”), each a “Party” and together the “Parties”, is to collaborate in the achievement of common objectives as described, and on the basis outlined, below.

1. **Background**

(a) The World Bank is an international development institution established by Articles of Agreement adopted by its member countries. The World Bank’s mission is to reduce poverty, improve living conditions, and promote sustainable and comprehensive development in the developing world. It achieves these objectives by providing loans, concessional financing, technical assistance, and knowledge-sharing services to its member countries and through partnerships with other organizations.

(b) Further to its mission, the World Bank, through its Sustainable Development Network (SDN), has an interest in collaborating with other international organizations to address the global challenge of sustainable development in the developing world.

(c) UNESCO is a multilateral organization, member of the United Nations institutional family, and engaged in the promotion of education, science and culture worldwide. UNESCO works to create conditions for dialogue among civilizations, cultures and peoples, based upon respect for commonly shared values, and seeks to achieve sustainable development encompassing observance of human rights, mutual respect and the alleviation of poverty.

(d) Further to its mission UNESCO, through its Culture Sector, has equal interest in developing partnerships with other multilateral organizations in pursuing the policies and practices of culture and development.

2. **Common Objectives**

Consistent with their respective mandates, the Parties desire to collaborate in joint initiatives furthering the understanding and the promotion of cultural, social and natural heritage in the pursuit of sustainable development in the world, and particularly in the developing world, contributing to the achievement of the Millennium Development Goals (MDGs).

3. **Framework for Collaboration**

(a) This Memorandum provides a framework within which the Parties may develop and undertake collaborative activities in order to pursue more effectively the objectives identified in paragraph 2 (*Common Objectives*) above.
(b) In particular, the Parties anticipate that their collaboration will focus on a number of specific substantive areas, consistent with their policies and procedures, which will include, but not be limited to:

(i) **historic cities preservation and rehabilitation**: this would include the joint identification of scenarios to further promote historic cities and the historic urban landscape agenda in priority regions of the developing world, as well as the collaboration in the early identification of investment operations by the World Bank and of technical assistance programs by UNESCO;

(ii) **the promotion of cultural diversity**: this would include supporting cultural diversity in policies and programs, including the development of cultural indicators, in order to ensure social cohesion among diverse social groups. Multicultural approaches are particularly important to ensure that indigenous peoples, minorities and migrants can find their place in the broader society and resolve tension and conflicts in a peaceful and civil manner. Multicultural policies have strong relevance for social service delivery, in particular education and health, governance systems, justice and conflict resolution, as well as community-driven development approaches;

(iii) **the conservation of natural heritage sites**: this would include the promotion of environmental protection of natural resources, in particular the sites inscribed on the UNESCO World Heritage List, within a holistic approach that allows for sustainable productive activities that benefit local communities, the promotion of sustainable forest management, the protection of biodiversity and the pursuit of sustainable tourism; and

(iv) **the economics of cultural heritage**: this would include the design and implementation of an international research program on the economic gains to be obtained from investing in cultural assets, including cultural industries, in emerging and developing countries, the development of cultural and economic indicators, and the organization of an international conference on the economics of culture, based on the mobilization of world-class expertise and of the availability of financial resources external to the Parties.

4. **Forms of Collaboration**

(a) Further to the achievement of their common objectives, the Parties intend to consider ways to:

(i) share knowledge, ideas and lessons learned;
(ii) exchange personnel to increase knowledge-sharing and exchange in the context of the preparation and implementation of projects;
(iii) plan joint capacity building programs in areas of common interest;
(iv) collaborate on the promotion, preparation and organization of joint seminars and conferences;
(v) collaborate on the organization and execution of high-level joint research projects on subjects of primary interest;
(vi) collaborate on ways to join with other entities which could bring further support to the activities pursued under this Memorandum;
(vii) collaborate on the dissemination of the lessons learned/results of projects/research through publications, the Internet, and other easily accessible means; and
(viii) periodically evaluate the effectiveness of working in collaboration, with reference to their respective mandates and priorities.

(b) The Parties anticipate that each Party will contribute to the activities undertaken pursuant to this Memorandum, in one or more of the following ways:

(i) mobilizing its own staff for the pursuit of the objectives of this Memorandum, and paying for related out-of-pocket expenses;
(ii) financing the travel and subsistence costs related to the mobilization of the other Party’s staff where reasonable and if budget resources are available;
(iii) providing facilities for workshops, conferences or training seminars;
(iv) engaging and funding consultants;
(v) providing support to relevant stakeholders; and
(vi) such other means as the Parties may agree.

5. **Implementation**

(a) The responsibility for the implementation of activities pursuant to the framework established by this Memorandum shall lie with the Parties, each of which has designated a representative below. By written notice or e-mail to the other Party, each Party may designate different or additional persons as its representatives.
