

The list of thematic sessions

1	Title	Organized by	Sub-theme
	Public and industry regulatory initiatives in the field of intellectual property enforcement.	ISOC	Intellectual property Internet
	Summary		
	This session aims to examine the efficacy of both private and public tools in the enforcement of intellectual property and their impact on digital content and the Internet itself.		
	Expected outcomes		
Not specified.			
Expected speakers			
Ms. Theresa Swinehard, Verizon, (TBC) Mr. Patrice Chazerand, Digital Europe (TBC) Ms. Raegan McDonald, AccessNow (TBC) Ms. Marietje Schaake, European Parliament (TBC) Mr. Paolo Lanteri, WIPO (TBC) Mr. Daniel Fiedlaender, IFPI (TBC) Mr. Benjamin Farrand, Univeristy of Strathclyde (TBC)			
2	Title	Organized by	Sub-theme
	Contested Governance : Exploring the Evolving Policy-making Environment and Considering Collaborative Solutions from the Netroots	IAMCR (Divina Meigs)	Internet governance
	Summary		
	This session will consider how internet rights are being considered from the netroots (ie civil society) and how this can have impact on the states and other stakeholders. It will be organized as a roundtable of researchers with short position statements so as to leave discussion time with the floor. The perspective of several regions will be presented (MENA, Europe, Northern America, Asia ...).		
	Preliminary papers will be distributed. The target audience is decision-makers in various states and organizations, engaging with researchers. The expected outcome is an analysis of online emerging trends and collaborative projects as sense-making practices and a better understanding of the new approaches to transborder regulation about issues of accountability, privacy, net neutrality and social networks agency.		
Among the papers and issues dealt with:			
<ul style="list-style-type: none"> -multi-stakeholder policy-making from the top and from the netroots -net neutrality and contested governance -the range of initiatives for increased state and private sector surveillance -the “fifth estate” and collective accountability -“netroots” and collaborative resistance - internet rights : the impact of civil society on public policy 			
Expected outcomes			
The expected outcome is an analysis of online collaborative projects as sense-making practices and a better understanding of the new approaches to transborder collaborative regulation about issues of accountability, privacy, net neutrality and social networks agency.			
Expected speakers			
<ul style="list-style-type: none"> -Mr Mathieu O'Neil, Australian National University, Australia -Ms Julia Pohle, Vrije Universiteit, Belgium -Mr William H. Dutton, Oxford University, United Kingdom 			

	<p>-Mr Ang Peng Hwa, Nanyang Technological University, Singapore -Mr Hervé Le Crosnier, Université de Basse Normandie, France -Ms Jeanette Hofmann, Humboldt University, Germany -Ms Hanane Boujemi, Hivos, executive coordinator Internet governance program, Hivos (Netherlands)</p>		
3	Title	Organized by	Sub-theme
	The new PII – Privacy-impacting Information	ISOC	Privacy Internet
	Summary		
	<p>This workshop will explore the boundaries of legal definitions of “personal data” in practice. In particular, it will consider:</p> <ul style="list-style-type: none"> - trends in tools and techniques to: (a) “anonmyse” personal data; (b) “de-anonymise” data; and (c) identify devices and users - the meaning of “identifiable” - whether data that has a potential privacy impact is excluded by traditional definitions of personal data - the implications of choosing different definitions for personal data 		
	Expected outcomes		
	Expected outcomes: A multi-perspective analysis that can be contributed to other fora where these issues are being considered.		
	Expected speakers		
<p>Mr. Michael Donohue, Senior Policy Analyst, Organisation for Economic Co-operation and Development (OECD) Ms. Xianhong Hu, Division for Freedom of Expression and Media Development, Communication and Information Sector, United Nations Educational, Scientific and Cultural Organization (UNESCO) Jennifer Stoddart, Privacy Commissioner of Canada Mr. Jacob Kohnstamm, Chairman of the Dutch Data Protection Authority and the Article 29 Working Party Ms. Lara Ballard, Special Advisor for Privacy and Technology, U.S. Department of State Mr. Thomas Roessler, Mr. Rigo Wenning or Ms. Wendy Seltzer, World Wide Web Consortium (W3C) Mr. Trent Adams, Senior Policy Advisor, PayPal Ms. Alissa Cooper, Chief Computer Scientist at the Center for Democracy and Technology (CDT) Mr. Kimon Zorbas, Vice-President, Interactive Advertising Bureau (IAB) Europe</p>			
4	Title	Organized by	Sub-theme
	WGIG+8: Stock-Taking, Mapping, and Going Forward	Centre for Internet and Society	Internet Governance
	Summary		
	Take stock of progress made with regards to the WGIG recommendations since WSIS. The target audience would be those interested in understanding and shaping the processes that relate to Internet governance.		
	Expected outcomes		
	The expected outcome is a short report by the rapporteur, detailing the outcomes of this workshop.		
	Expected speakers		
<p>Mr William Drake (International Fellow, Media Change and Innovation Division, Institute of Mass Communication and Media Research, University of Zurich, Switzerland — Civil Society) Mr Peng Hwa Ang (Dean, School of Communication and Information, Nanyang Technological University, Singapore — Civil Society) Ms Anriette Esterhuysen (Executive Director, Association for Progressive Communications, South Africa — Civil Society / www.apc.org)</p>			

	Mr Moez Chakchouk (Head, Agence Tunisienne d'Internet, Tunisia — Government) Ms Desiree Miloshevic (International Affairs and Policy Adviser, Afiliias, United Kingdom — Private Sector) [Representative of an intergovernmental organization]		
5	Title	Organized by	Sub-theme
	Promote Internet Privacy and Freedom of Expression	UNESCO CI/ Rights-Based	Internet Privacy
	Summary		
	The session aims to trigger foresighted discussion on protecting privacy and promoting freedom of expression on the Internet. The occasion will also serve to present UNESCO's publications "Global Survey of Internet Privacy and Freedom of Expression" and "Freedom of Expression: Freedom of Connection".		
	Expected outcomes		
Knowledge and experience shared on the relationship between Internet privacy and freedom of expression, resulting in recommendations on how to best protect these rights in the digital era.			
Expected speakers			
Andrew Puddephatt (Global Partners & Associates) Victoria Nash (Oxford Internet Institute) Gabrielle Guillemin (Article 19) Leslie Harris (Center for Democracy and Technology) Christine Runnegar (ISOC) Pranesh Prakash (The Centre for Internet and Society)			
6	Title	Organized by	Sub-theme
	IDN report	EUrid UNESCO CI/KSD	Internet Multilingualism
	Summary		
	Expected outcomes		
	Expected speakers		
UNESCO EURid			
7	Title	Organized by	Sub-theme
	Access: Achievements and new challenges	APC	Access Mobile technology Wireless Internet
	Summary		
	The session will be an opportunity for a critical analysis of the impact of the explosion of mobile and wireless internet access in bridging the access gap. The session will look at the most significant progress that have been made in the last 10 years and will identify the persistent challenges and current threats on access, bringing ideas that can inform the WSIS review process.		
	Expected outcomes		
Not specified			
Expected speakers			
- Ms. Alice Munyua, Communications Commission of Kenya, Government, Kenya, www.cck.go.ke - Mr. Ermanno Pietrosevoli, EsLaRed, Civil society, Venezuela, www.eslared.org.ve - Mr. Sebastián Bellagamba, ISOC LAC, Technical community, Argentina, www.isoc.org - Ms. Anriette Esterhuysen, APC, Civil Society, South Africa, www.apc.org			
8	Title	Organized by	Sub-theme

	Consultative meeting “Towards WSIS +10 and Beyond: Inclusion of Persons with Disabilities in Knowledge Societies”	UNESCO CI/KSD	Access Persons with disabilities
	Summary		
	This session will discuss the research findings on the application of ICTs to access information and knowledge for persons with disabilities. This thematic workshop will be associated with a series of the meetings to be organized by the members of the United Nations Interagency Support Group on the implementation of the United Nations Convention on the Rights of Persons with Disabilities (IASG) for the preparation of the inputs for the 2013 General Assembly High-level Meeting on Disability and Development planned on 23 September 2013 in New York.		
	Expected outcomes		
	Not specified		
	Expected speakers		
	Ms Akiko Ito, Chief, Secretariat for the Convention on the Rights of Persons with Disabilities/UN Focal Point on Disability, DESA (Tbc) ITU representative (name to be confirmed) Mr Axel Leblois, Founder and Executive Director of G3ict – the Global Initiative for Inclusive Technologies, an Advocacy Initiative of the United Nations Global Alliance for ICT and Development – a major author of the research report on WSIS+10 review on accessibility issues Ms Andrea J Saks, International Telecommunications Specialist for the Deaf Convener ITU JCA-AHF (Joint Coordinating Activity on Accessibility and Human Factors), Coordinator IGF DCAD (Dynamic Coalition on Accessibility and Disability) Mr John Kemp, CEO, Abilities! (to be confirmed) Mr James Thurston, Microsoft Corporation (on-going discussions) Other speakers		
9	Title	Organized by	Sub-theme
	Consultative meeting “Towards WSIS +10 and Beyond: Literacy and Required Competencies in Knowledge Societies	UNESCO CI/KSD	Access Persons with disabilities
	Summary		
	Building on the results of the research report on literacy and competencies required for citizens, communities and nations to participate in Knowledge Societies commissioned by UNESCO, this session will discuss the outcomes of the WSIS+10 review and challenges, brainstorm on a broader framework on literacy and competencies and identify emerging learning trends and needs.		
	Expected outcomes		
	Elaborate recommendations for foresight proposed in the research report as well as identify ways of mainstreaming MIL, digital and ICTs literacies within a broader literacy framework.		
	Expected speakers		
	Ms Alice Lee, author of the research paper (author of the research paper) Ms Ulla Karlson, Media literacy expert Ms Jane Secker, Copyright and Digital Literacy Advisor, Centre for Learning Technology, London School of Economics and Political Science, Editor, Journal of Information Literacy		
	Confirmed Speakers		
	Diane Boulay, ED/THE/TEP (Basic literacy through mobile phones) Ms Evelyne Bevort (France), e.bevort@clemi.org Mr José Manuel (Spain), jmtornero12@gmail.com Mr Paolo Celot (Italy), celot@eavi.eu Other speakers		
10	Title	Organized by	Sub-theme

	Open System Solutions for addressing Global Challenges	UNESCO CI/KSD	Open technologies Climate change Education PCPD
	Summary		
	This session will aim to provide the overview of open movement in general and demonstrate the power of open technologies for tackling global challenges such as climate change, quality education for all and PCPD. It will also discuss the results of researches conducted by UNESCO.		
	Expected outcomes		
	Potential of open technologies addressed and researches findings consolidated.		
	Expected speakers		
	Mr Steven Kovats, r0g, the author of research, Germany – Civil Society Mr Javin Ochieng, Project Coordinator, Map Mathare, Kenya – Civil Society Speaker from Caribbean Region (tbc) Speaker from South Sudan (tbc) -Government Speaker for Climate Change (Asia tbc)		
11	Title What Exactly am I Buying? Ownership vs Licensing in the Digital Age	Organized by IFLA	Sub-theme Access
	Summary		
	This workshop will explore the expectations of consumers, creators and cultural custodians in the digital age, and the effects of licenses and terms and conditions on pre-digital notions of ownership.		
	Expected outcomes		
	The workshop will review emerging trends in the area of licensing/ownership of digital information, and identify key aspects that must be included in any post-2015 WSIS Agenda.		
	Expected speakers		
	Stuart Hamilton, Director of Policy and Advocacy, International Federation of Library Associations and Institutions (IFLA) (Civil Society) Lee Hibbard, Media and Information Society Division of the Council of Europe (Intergovernmental Organisation) Matthias Langenegger, Computer Communications Industry Association (CCIA) (Business)		
12	Title Supporting Knowledge Societies through Public Access to the Internet	Organized by IFLA	Sub-theme Access
	Summary		
	The session will engage the audience and the panel in a discussion on the varying components and aspects of public access. It will specifically look at:		
	<ul style="list-style-type: none"> - The benefits of public access to the Internet in the community - National and regional policies to support public access to the Internet - The role of public libraries in providing access to the Internet, including access to services, information resources and access to knowledge - The role of the business sector in supporting public access to the Internet - Future trends in access to technology that can positively impact public access to the Internet 		
	Expected outcomes		
	The workshop will review emerging trends in the area of licensing/ownership of digital information, and identify key aspects that must be included in any post-2015 WSIS Agenda.		
	Expected speakers		
	Ms. Neelie Kroes, Vice-President of the European Commission, Intergovernmental Organisation, Netherlands Mr. Chris Coward, Director of the Technology & Social Change Group (TASCHA) at the University of Washington), Academia, United States		

	<p>Ms. Ingrid Parent, President, International Federation of Library Associations (IFLA) , Civil Society, Canada</p> <p>Ms. Sanjana Shrestha, READ Global, Beyond Access, Civil Society, Nepal</p> <p>Mr. Tim Berners-Lee, W3C, Academia/Technical Community, United Kingdom</p> <p>Mr. Kafui Prebbie, CEO TechAid, Business Sector, Ghana</p> <p>Ms. Eve Gray, Director, OpeningScholarship Project, Academia, South Africa</p>		
13	Title	Organized by	Sub-theme
	Multistakeholder principles	ICC BASIS	WSIS Mechanism
	Summary		
	<p>This session will build on discussions that have taken place at the IGF, including most recently in several session including that on Taking Stock at the 2012 IGF in Baku and other events to promote awareness of these principles, share ideas about how they can be built on and best used.</p>		
	Expected outcomes		
Expected speakers			
<p>Wolfgang Kleinwachter (civil society)</p> <p>Bertrand de La Chapelle (civil society)</p> <p>Theresa Swinehart (business)</p> <p>Regional technical organizations</p> <p>Bernadette Peters/CTU</p> <p>Government of Brazil</p> <p>Government of Portugal</p>			
14	Title	Organized by	Sub-theme
	Open Access to Scientific Information and Research – Myths and Truths	UNESCO CI/KSD	Open Access
	Summary		
	<p>Session objective:</p> <ul style="list-style-type: none"> • Strengthen awareness of the delegates on the potential of Open Access in scientific knowledge sharing that can be dramatically accelerated by ICTs; • Introduce Berlin Open Access Declaration to the delegates; • Invite partnerships as an enabling mechanism to improve access to and sharing of scientific information and research through Open Access. • Provide analysis for anticipating foreseeable trends and emerging challenges to enable stakeholders to develop strategies and policies for implementation of Open Access; 		
	Expected outcomes		
<ul style="list-style-type: none"> • UNESCO’s stakeholders enabled to understand trends and emerging challenges related to the impact of open access on scientific information acquisition and sharing; • Context and the utility of Open Access policy discussed and barriers identified for Open Access Policy adoption; • Context and Implications of “Opening up” discussed; • Collaborative and collective efforts and actions behind the Open Access movement discussed and their policy implications are appreciated; 			
Expected speakers			
<p>UNESCO ADG/CI</p> <p>UNESCO DIR/KSD</p> <p>Open Access Success (Minister, PD or his designee)</p> <ol style="list-style-type: none"> a. Argentina b. Portugal c. Columbia d. Brazil (SciELO) 			

	e. South Africa (National Science Council) Open Access and UN [04:50-05:30] a. Agency A b. Agency B c. Agency C		
15	Title	Organized by	Sub-theme
	Improving Access to Data on the Information Technology Sector	WITSA , UNCTAD, GIZ	E-business
	Summary		
	<p>This session addresses IT sector promotion in developing and transition countries, specifically the lack of standardised and comparable data on the composition, capabilities and size of national IT sectors which, inter alia, impedes evidence-based policy development aimed at domestic IT sector promotion. The session organisers present approaches, instruments and tools for national IT industry associations to contribute to the process of collecting national IT sector-related data. The IT Industry Barometer, which is a tool to gather and analyse quantitative and qualitative information on the performance of national IT industries, will be discussed in detail during this session.</p>		
	Expected outcomes		
<p>The audience will be informed about the joint IT sector data collecting initiative of the World Information Technology and Services Alliance (WITSA), the United Nations Conference on Trade and Development (UNCTAD), and the Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ). It is planned that WITSA members, i.e. IT associations from 85 countries, will periodically collect IT sector-related data in future, using the IT Industry Barometer. Representatives of IT industry associations from Bulgaria and Guatemala shall discuss their experience in having applied the IT Industry Barometer in the past with the audience. Hardcopies of UNCTAD's Information Economy Report 2012 and BMZ/GIZ's IT Sector Promotion publications, which include a detailed description of the IT Industry Barometer, will be made available to the audience.</p>			
Expected speakers			
<ul style="list-style-type: none"> • Dr James H. Poisant, Secretary General, WITSA, Private Sector, USA, witsa.org • Mr Torbjörn Fredriksson, Chief, ICT Analysis Section / Science, Technology and ICT Branch / Division on Technology and Logistics, UNCTAD, IGO, Switzerland, unctad.org • Mr Bernd Friedrich, Head of Sector Project ICT4D, GIZ, Government, Germany, giz.de • Mr Filip Mutafis, Member of the Management Board, Bulgarian Association of Software Companies (BASSCOM), Private Sector, Bulgaria, basscom.org • Mr Edgar Santos, President, Gremial de Exportadores de Software de Guatemala (SOFEX), Private Sector, Guatemala, sofex.org.gt • Representative of the Federal Ministry for Economic Cooperation and Development (BMZ), Government, Germany, bmz.de 			
16	Title	Organized by	Sub-theme
	Innovative Schools for a New Global Citizen	Microsoft	Innovation Formal education
	Summary		
	<p>When you think about innovative teaching and learning, the use of technology is essential. First you need access to devices and broadband. But, we see too often governments purchasing devices that result in no improvement in student outcomes. HOW that technology is used in the classroom is crucial. The question is, how do we scale such innovation? How do we create district wide innovation, country wide innovation? Within the developing world where technology is just beginning to be deployed, how can we ensure it will be used to create global citizens?</p>		
Expected outcomes			

Expected speakers			
Nasha Fitter, Head of Innovative Schools Program, Microsoft Education			
17	Title	Organized by	Sub-theme
	The place of Education in Knowledge Societies: Changing Paradigms, Managing sustainable Education	IFIP	E-learning
	Summary		
	The first session will focus on the place of Education and the role and mission of schools in a Knowledge Society. The second session will work on Education paradigms, ICT Curricula, and Education Management.		
	Expected outcomes		
	The output will be a set of precise statements and recommendations, on which IFIP TC3 will go further working during the year 2013, particularly at the WCCE 2013, the World Conference on Computers in Education (Torun, Poland, July 2013). These statements and recommendations will enrich the WSIS reflection and provide concrete ideas for action.		
Expected speakers			
Prof. Bernard CORNU, IFIP TC3 Chair, CNED, France Mr. Sindre Roesvik, IFIP TC3 vice-Chair, Norway Raymond Morel, IFIP Special Consultant, Switzerland Prof. Mary Webb, UK Prof. Nick Reynolds, Australia Prof. Don Passey, UK In addition to the previous list of organizers, panalists will be: Mr. Andrej Brodnik, Slovenia, Mr. Maciej Syslo, Poland Mrs. Denise Leahy, Ireland Mrs. Anna Grabowska, Poland Mrs. Monique Grandbastien, France Mr. Eric Sanchez, France Mr. Roumen Nikolov, Bulgaria Mr. Carlos Delgado Kloos, Spain Mr. Ivan Kalas, Slovakia			
18	Title	Organized by	Sub-theme
	Adoption and teaching of Open/Libre technologies in Higher Education curricula and Professional recognition for FOSS engineers and practitioners	IFIP	FOSS Higher education
	Summary		
	Does teaching of Open/Libre technologies enrich the IT culture of future professionals and practitioners? Community participation, sharing of experiences and solutions, understanding of the related economic models, what added value beyond the pure IT?		
	Expected outcomes		
Expected speakers			
Brenda Aynsley, Chair IFIP International Professional Practice Partnership (IP3) Simon Phipps, computer industry insider and commentator, founder of IBM's Java Technology Center Roberto Di Cosmo, university of Paris Diderot Albert Cohen, INRIA			
19	Title	Organized by	Sub-theme
	The future of mobile learning	UNESCO ED	Mobile technology E-learning
	Summary		

	This session will be designed to share the latest developments of mobile technologies and their implications for education, and envision innovative ways in which mobile technologies can be used to enhance the quality of education and transform learning processes.		
	Expected outcomes		
	Expected speakers		
	Francesc Pedro, UNESCO Steve Vosloo, UNESCO		
20	Title	Organized by	Sub-theme
	Mobile learning for social inclusion	UNESCO ED	Mobile technology E-learning
	Summary		
	One of the greatest advantages of mobile phones is how they can be leveraged to serve those individuals who are most marginalized in formal education systems and learning models. The relative facility with which mobiles can be obtained, distributed, used and adapted to local contexts makes them a powerful tool in situations where social inclusion should be strongly encouraged.		
	Expected outcomes		
	Not specified		
	Expected speakers		
	Francesc Pedro, UNESCO Steve Vosloo, UNESCO		
21	Title	Organized by	Sub-theme
	Digital textbook and transformation of education	UNESCO ED	Mobile technology E-learning
	Summary		
	This session focuses on taking stock of current trials of digital textbook and how it transforms education.		
	Expected outcomes		
	Not specified		
	Expected speakers		
	Researchers/practitioners/professors from Korea, Singapore or USA		
22	Title	Organized by	Sub-theme
	ICT enhanced learning environment (ICT embedded future school)	UNESCO ED	Mobile technology E-learning
	Summary		
	ICT play pivotal role not only to innovate teaching and learning practices but also learning environment. Many governments are pursuing ICT imbedded learning environment such as piloting future school and library.		
	Expected outcomes		
	Not specified		
	Expected speakers		
	Experts from UNESCO, KERIS, European Schoolnet or UK		
23	Title	Organized by	Sub-theme
	Broadband Platform and 1:1 Computing: Enabling Ubiquitous Access to Learning Opportunities	UNESCO ED	Mobile technology E-learning
	Summary		
	The session aims to share the recent developments in the field of broadband and 1:1 computing devices, discuss their implications for education, and trigger foresight on alternative solution to the MDG2 , namely, universal primary education.		
	Expected outcomes		
	UNESCO's working paper series on mobile learning and the draft of UNESCO Policy Guidelines		

	for Mobile Learning will be presented to collect feedback.		
	Expected speakers		
	Broadband Commissioners and UNESCO specialist in mobile learning		
24	Title	Organized by	Sub-theme
	Using E-Science to Strengthen the Interface between Science and Policy	UNESCO SC	Policy development E-science
	Summary		
	This session will be built of fours components:		
	<ol style="list-style-type: none"> 1. 'Using E-Science to Strengthen the Interface between Science, Policy and Society' (the first Technical Working Group) 2. 'Emerging Trends in E-Science: Citizen Science, Mobile technologies and ICTs' (the second Technical Working Group) 3. Ministerial Roundtable on, 'Using E-Science to Strengthen the Interface between Science, Policy and Society.' (the third Technical Working Group) 4. Press conference 		
	Expected outcomes		
	<ol style="list-style-type: none"> 1. Design an action plan for the establishment of a web-based platform to support the science policy interface 2. Mobilize partners for the establishment of the platform 3. Explore emerging trends in E-Science 4. Incorporate civil society science and science policy interface through E-Science 		
	Expected speakers		
	<ol style="list-style-type: none"> 1. Prof. Margaret Kamar Minister for Higher Education Science and Technology, Kenya 2. Recep Tayyip Erdoğan Prime Minister of the Republic of Turkey 3. Professor Ali M. Abbasov Minister of Communications and Information Technologies, Azerbaijan 4. Hon. Dr. Vincent Biruta Minister of Education, Rwanda 5. Shri Sudini Jaipal Reddy Honourable Minister for Ministry of Science & Technology and Ministry of Earth Sciences Department of Science & Technology, Technology Bhavan 6. Nazli Choucri Professor of Political Science The Associate Director of MIT's Technology and Development Program (TDP) 7. Commissioner Máire Geoghegan-Quinn, European Commission, Belgium 8. Marco Antonio Raupp, Minister of Science and Technology, Brazil 		
	PROPOSED CHAIRPERSON FOR THE TECHNICAL WORKING GROUP ON THE PLATFORM		
	Sir Robert Tony Watson

	Developing World and Civil Society origins and concerns as they relate to the WSIS agenda and its future	Indiana State University	Communication
Summary			
<p>The session aims to not only investigate the purposes of continuing a/ the critical investigation of media governance, but also to raise questions and interrogate the future of global communications. Specifically we focus on fundamental questions regarding the future of</p>			

	creativity and democratization of communication, forms of legitimacy in making policy for media and culture, the roots of hope and futility in development and communication, and the processes of knowledge creation.		
	Expected outcomes		
	Not specified.		
	Expected speakers		
	Univ.-Prof. Dr. Katharine Sarikakis Institut für Publizistik- und Kommunikationswissenschaft der Universität Wien, Vienna, Austria		
	Dr. Kaarle Nordenstreng, Professor Emeritus, University of Tampere, Finland		
	Dr. Richard C Vincent, Professor of Global Communication, Indiana State University, USA and others, to be determined. We will check to see if Milton Mueller, Professor, Syracuse University, Syracuse, New York, USA will be available.		
28	Title	Organized by	Sub-theme
	Exploring the evolving media landscape: towards updating strategies, to face challenges and seize opportunities	UNESCO CI/FEM	Media and ICTs
	Summary		
	The session will focus on the implementation of WSIS Action Line 9: Media. A study will be presented for discussion, which includes an overview of trends and developments in the media landscape since the launch of the World Summit on the Information Society, analyses challenges and opportunities in the area of freedom of expression and media development and provides foresight-oriented and concrete recommendations for an updated strategy and mechanisms for the implementation of Action Line C9 Media during the post-2015 WSIS process.		
	Expected outcomes		
	Concrete recommendations for post-2015 strategy on C9 Media		
	Expected speakers		
	Divina Frau-Meigs (Université La Sorbonne) Daya Thussu (University of Westminster) Marius Dragomir (Open Society Foundations) Vincent Peyregne (WAN/IFRA) TBC Bill Echickson (Google): TBC		
29	Title	Organized by	Sub-theme
	Regional session on promoting freedom of expression and media development in Arab States	UNESCO CI/FEM	FoE Media Development
	Summary		
	The session aims to bring a regional perspective to the WSIS strategy analysis on C9 media and share good practice/lessons learned on promoting freedom of expression and media development at regional and national level, drawing lessons from the recent dynamics related to prospering media and new media's powerful impact on social and political transformation in Arab States.		
	Expected outcomes		
	Stock taken of regional developments and their implications for the promotion of freedom of expression and the role of free, independent and pluralistic media.		
	Expected speakers		
	Magda Abu Faid (Media Unlimited, Lebanon) Rasha Abdulla (The American University in Cairo, Egypt) Abeer Al Najjar (American University of Sharjah, UAE) Biljana Tatomir (International Media Support) Shabina Kathri (Doha News, Qatar)		

Khaled Kouba (Google, Tunisia).TBC			
30	Title	Organized by	Sub-theme
	Citizen journalists/citizen reporting	UNESCO CI/FEM	FoE Media Development
	Summary		
	The session aims to discuss the status of emerging phenomenon of citizen journalists and citizen reporting via Internet, newspaper and broadcasting, and further explore its impact on promoting freedom of expression, the safety of journalists and new forms of journalism in an era characterized by media convergence.		
	Expected outcomes		
Review of the practice of citizen journalists/citizen reporters around the world, assessment of the obstacles and risks they face and recommendations to strengthen their support and protection.			
Expected speakers			
Maurice Ali (International Association of Independent Journalists, Canada) Malika Bilal (presenter for Jazeera's Stream program) Speaker to be organized by Free Press Unlimited TBC Speaker to be organized by Global Voices TBC Jean-Jacques Sahel (Skype) TBC			
31	Title	Organized by	Sub-theme
	Community media: Enabling policies, legislative environments and sustainable measures	UNESCO CI/FEM	Media Development
	Summary		
	The session aims to present a status quo report on the emerging phenomenon of citizen journalists and citizen reporting via Internet, newspaper and broadcasting, and further explore its impact on promoting freedom of expression, safety of journalists and new forms of journalism in media-converged era.		
	Expected outcomes		
Expected speakers			
32	Title	Organized by	Sub-theme
	Ethical Challenges In the Open Information Society	Ethical Journalism Network	Journalism Internet Code of conduct
	Summary		
	This session will discuss if the internet and new cultural values in the world of information are eroding commitment to professionalism in journalism. Can responsibility and tolerance be made core values of online communications in the public information space, particularly in an age when hate-speech and intolerance are on the march? Is that desirable, and if so, how will it be achieved?		
	Expected outcomes		
Expected speakers

	Internet Governance Principles: Towards a Multistakeholder and Universal Framework of Commitments	Wolfgang Kleinwaecheter	Ethics
	Summary		
	In the last years the discussion on principles how to govern the Internet became a major issue in international meetings. Intergovernmental organizations as the Council of Europe, the OECD or the OSCE, groups of governments as the G 8, the IBSA and the Shanghai Group and non-		

	<p>governmental organizations from private sector, civil society and technical community as the Global Network Initiative, the Association for Progressive Communication (APC) and the I*-organizations agreed on a number of principles how they will approach the governance of the Internet. Furthermore governments adopted national Internet strategies where they also defined guiding principles for their domestic Internet policies. The problem is that none of those documents can claim that the proposed principles are universal.</p>		
	<p>Expected outcomes</p>

	Local Content: an enabler for global growth and creativity	The Walt Disney Company	Local content, education
	Summary		
	- This session will examine the positive role played by the development of local content across the world and the correlation with the rise of broadband, mobile technologies and the internet; it will discuss the impact of these trends in terms of economic and social development, preservation of local cultures, access to global information, creativity, innovation, and in particular its role in education children; it will also look at legal frameworks.		
	Expected outcomes		
	- The expected outcome is for the participants to pinpoint key trends and bottlenecks that can favor the further spread of local content worldwide, and in particular in its internet-based models. Ideally, the identified key trends and bottlenecks should feed into the WSIS+10 recommendations.		
	Expected speakers		
	- Mrs. Dorothy Attwood, Senior Vice President, Global Public Policy, The Walt Disney Company -Multiple stakeholders tbc...		
50	Title	Organized by	Sub-theme
	Enhanced cooperation and the Internet addressing organizations	ICANN	WSIS process Enhanced cooperation
	Summary		
	This session will discuss enhanced cooperation carried out by Internet governance institutions that deal with addressing resources, domain names and numbers, through multi-stakeholder approaches, and begin a constructive dialogue on how the current processes of enhanced cooperation can be improved.		
	Expected outcomes		
	The outcome of the session will form a foundation for further work on input to WSIS+10 follow-up on enhanced cooperation. It will also have the added attraction of speakers at the APNIC i-gov session in Singapore.		
	Expected speakers		
	ICANN, NRO, GLOCOM.

	Rights-Based Principles and the Internet: Taking Stock and Moving Forward	Dr Marianne Franklin, Internet Rights and Principles Dynamic Coalition	Internet, rights, ethics
	Summary		
	This session brings together a range of stakeholders who have been involved in initiatives developing rights-based principles for Internet design, access, and use since the WSIS, during the IGF, and in other policy-making and agenda-setting arenas.		
	Expected outcomes		
	The output will be in the form of recommendations in terms of practical as well as principled steps for further cooperation in this domain. In light of the initiative taken by the Internet Rights and Principles Charter and its Ten Principles in facilitating policy-making and practical frameworks in more detail (www.irpcharter.org), the session thereby aims to produce an up to date picture of a) principles and operationalizations developed since the WSIS, b) institutional-level and educative initiatives that need further work as the IGF moves forward, and c) how the IRP Charter and other rights-based frameworks, and advocacy can play a role.		
	Expected speakers

54	Title	Organized by	Sub-theme
	Free Expression, Privacy, and Security in the Information Society	Global Network Initiative	Human rights Ethics
	Summary		
	This workshop will explore the implications of recent international proposals on information security for human rights, particularly freedom of expression and privacy. Using the framework WSIS Action Line C10—Ethical Dimensions of the Information Society—the panel will consider recent developments at the international level, including the UN Human Rights council resolution on the Internet as well as the code of conduct on information security proposed at the UN General Assembly by China, Russia, Tajikistan, and Uzbekistan.		
	Expected outcomes		
The expected outcome is that the target audience’s understanding of the ethical dimensions of information security, including the impact of proposals on human rights, is increased, and that the perspectives of diverse stakeholders inform intergovernmental consideration of these issues going forward.			
Expected speakers			
moderator: Susan Morgan, GNI (civil society/multistakeholder initiative) exact panelists to be determined, but will include representatives from governments, the private sector, civil society and academia reflecting gender and geographical balance.			
55	Title	Organized by	Sub-theme
	Bridging the gap between the state and the media community – Engaging in constructive dialogue in Africa	African Media Initiative	Africa Media
	Summary		
	The panel is intended to bring together a number of high caliber panelists ranging from those in powerful public office, influential media owners and well known philanthropists from the African continent to discuss and develop strategies on how best to ensure that the information and technology revolution benefits to the fullest the continent and its citizens.		
	Expected outcomes		
The expected outcomes are: (1) to move away from entrenched, polarised and conflictual relationships between those in power and those from the private / independent media, (2) to create better understanding about the opportunities offered by open governance and open data, (3) to showcase some of the tech success stories from the continent.			
Expected speakers
