

Comments of the Sultanate of Oman

With reference to your letter CL/4101 about the transmission of the secretariat report and the draft text of the recommendation on Museums, the Sultanate of Oman supports the provisions of the proposed recommendations. The Sultanate of Oman also likes to add another recommendation, namely: to emphasize the importance of cooperation in capacity building through professional programs and provide facilities to the countries that they need; in order to be in a better position for the commitment to implement the proposed recommendations.
