Burkina Faso	10	5,4%
Kenya	8	4,2%
Guyana	6	3,1%
Egypt	5	2,6%
Malawi	4	2,0%

About the data

These analyses were developed by the Education for All Global Monitoring Report team in April 2009. They are based on data from the OECD-DAC On-line Database on Annual Aggregates and the Creditor Reporting System (CRS) On-line Database on Aid Activities. All data are expressed in Constant 2007 US\$.

Difference between commitments and disbursements:

- Commitment is a firm obligation by a donor to provide specified assistance to a country or multilateral organization.
- Disbursements record the actual international transfer of financial resources or of goods or services valued by the donor.
- As the aid committed in a given year can be disbursed later, sometimes over several years, the annual aid figures based on commitments are not comparable to those based on disbursements.
