

Education for global citizenship and the post-2015 monitoring agenda

Albert Motivans, UNESCO Institute for Statistics

Second UNESCO Forum on Global Citizenship Education

Paris, January 2015

The road to post-2015: a complex process

The SDGs by the numbers

- 17 goals and 169 targets
- 1 education goal – focuses on quality and equity
- 7 targets – from ECCE to adult learning
- 3 means of implementation

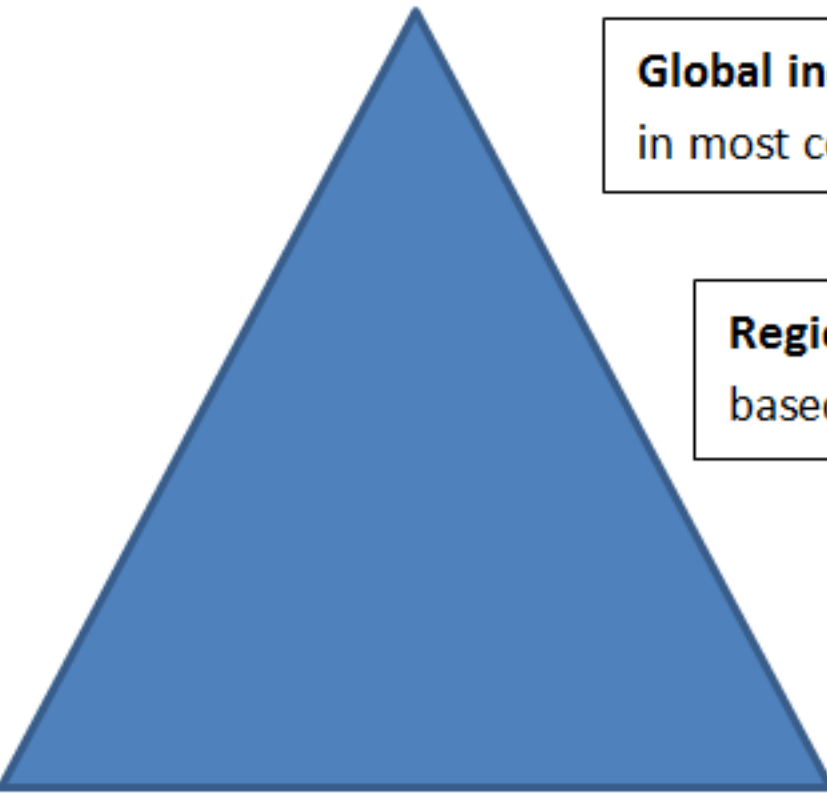

The target for global citizenship, plus....

- Target 4.7: by 2030 ensure all learners acquire knowledge and skills needed to promote sustainable development, including among others through education for sustainable development and sustainable lifestyles, human rights, gender equality, promotion of a culture of peace and non-violence, global citizenship, and appreciation of cultural diversity and of culture's contribution to sustainable development.

Engage in the conversation on indicators

- The Technical Advisory Group (TAG) on post-2015 indicators was convened to produce a proposal on indicators for education targets.
- The TAG proposal has mapped available and potential global indicators based on:
 - Alignment with concept (robustness)
 - Global comparability (=data availability)
- A consultation on the TAG proposal closes 30 January
<http://www.uis.unesco.org/Education/Pages/post-2015-education-indicators.aspx>

Understanding the hierarchy of indicators

Global indicators: standardized, comparable, reported in most countries, reflects “universal” policies

Regional indicators: standardized, comparable, based on geographic, economic or political groupings

National indicators: standardized, comparable over time, reflect national context and policy priorities

Key consultation questions on indicators

- 1.** For each target, does the report identify the best indicators that are most aligned with the concept and are already being tracked in a large number of countries?
- 2.** What new indicators could be developed to be more closely aligned with the proposed targets and have the potential to be globally comparable?
- 3.** For each target, please identify or propose the two most important indicators.
- 4.** Are there key issues that the document has not addressed in a satisfactory way or other issues that also need to be taken into consideration?

Next steps for indicator proposal

- Consultation (17 November to 30 January)
- Revised document (March)
- World Education Forum to adopt proposal (May 2015)
- 46th UN Statistical Commission likely to establish an Expert Group on Indicators in March 2015
- High-level meeting of Ministers will adopt the new agenda in September 2015
- 47th UN Statistical Commission will adopt the new indicator framework in March 2016
