QUESTIONNAIRE TO BE FILLED OUT BY THE SECRETARIATS OF UNESCO’s INTERNATIONAL AND INTERGOVERNMENTAL BODIES

1. Committee/Institute/Convention/Commission/Programme

   a. Mandate and objectives
      The International Hydrological Programme (IHP) is the only intergovernmental programme of the UN system devoted to water research, water resources management, and education and capacity building. Since its inception in 1975, IHP has evolved from an internationally coordinated hydrological research programme into an all encompassing, holistic water science programme to facilitate education and capacity development with a view towards enhancing water management and governance. IHP facilitates an interdisciplinary and integrated approach to watershed and aquifer management, which incorporates the social dimension of water resources, and promotes and develops international research in hydrological and freshwater sciences.

   b. Do you have specific goals for the work foreseen in the current biennium?

   Update IHP statutes and rules of procedure in order to:
   • Clarify how to replace a Bureau/council member when the elected person is not able to continue with its position
   • Formalize options for virtual sessions/intersession consultations of IHP’s statutory bodies
   • Harmonize the statutory texts with UNESCO’s priority gender equality
   • Harmonize the statutory texts in accordance with IHP’s current decentralized structure (inclusion of Regional offices)
   • Reflect the variety of financial mechanisms available (additional to trust funds, include special accounts)
   • Reflect the need of Member States to receive documentation well ahead of the statutory meetings (two months ahead in lieu of one)
   • Reflect on how to make the governing mechanism more inclusive as there is a general tendency that Member States that do not serve on the IGC for a certain period of time lose interest in the Programme
   • Reflect on how to make the composition of the IGC more balanced, proportional and representative

   c. Number of members and length of mandate periods for members

   - The Intergovernmental Council of the International Hydrological Programme is composed of 36 Member States of UNESCO, elected by the General Conference in accordance with Article II of the Statutes of the Council. Their mandate period is 4 years. Half of the Council members are rotated out but could continue to serve if reelected by the General Conference.

d. Are the members organized by electoral groups?

Yes, Members are organized in 6 regional groups, the same as UNESCO’s EXB and GC (Group I, II, III, IV, Va & Vb). Currently, the membership is not proportional and Group II wants to raise this issues.

e. Intergovernmental or personal capacity/expert capacity of members

While Members States are elected to serve on the Intergovernmental Council by the General Conference, currently the members of the Bureau are elected in their personal capacity; the IHP Bureau with the support of the Secretariat has initiated a consultation to change the status to national representation.

f. Have chairperson or/and Members States received introduction to the work and working methods?

A short video on the functioning of IHP was screened during the 22nd Council. The rules of procedures as well as the statutes of the IHP, are circulated prior to the meetings along with other related documentation.

g. Are Observers authorized to participate and/or take the floor?

Yes, after the members of the Council have taken the floor.

h. Meeting frequency and length

After having reduced the duration of the IHP Council to only 3 days and following the advice of the IOS audit and Member States request, the Council was again set to last 4 days

i. How many languages are interpreted during the meetings?

Six languages for the IHP Council: English, French, Spanish, Chinese, Russian, Arabic. It is to be noted though that according to the IHP statutes, article VII, the working languages for the Council are only English, French, Spanish and Russian. Working in six languages makes the Council sessions expensive. Apart from political reasons there is no substantive logic that would require to work with six languages.

j. Where do the meetings take place?

represented in the Council. Furthermore, the Council may establish working groups of specialists to examine specific projects. These working groups, whose members serve in a personal capacity, may include nationals of Member States of UNESCO that are not represented on the Council.
