GUIDELINES FOR THE PREPARATION OF REPORTS BY MEMBER STATES ON THE APPLICATION OF THE RECOMMENDATION CONCERNING EDUCATION FOR INTERNATIONAL UNDERSTANDING, CO-OPERATION AND PEACE AND EDUCATION RELATING TO HUMAN RIGHTS AND FUNDAMENTAL FREEDOM (1974)

As adopted at the 199th session of the Executive Board

I. Introduction

A. About the 1974 Recommendation

1. The UNESCO Recommendation concerning Education for International Understanding, Co-operation and Peace and Education relating to Human Rights and Fundamental Freedoms (1974 Recommendation) aims to promote world peace through international understanding, solidarity and cooperation. It was adopted on 19 November 1974 by the General Conference of UNESCO at its 18th session.

2. The General Conference "recommends that Member States should apply" the provisions included in the 1974 Recommendation "by taking whatever legislative or other steps" that provide institutional (e.g. policies and systems) and pedagogical (e.g. teacher training, educational materials, equipment, etc.) support for its implementation, based on the "objectives", referred to in paragraph 4 of the 1974 Recommendation, "regarded as major guiding principles" such as a global education perspective, cultural diversity, interdependence, communication, rights and responsibilities, international solidarity and cooperation, and, problem solving, as well as other principles[1] including:

    - cultural diversity and tolerance
    - equality and non-discrimination
    - peace and non-violence
    - justice and fairness
    - human rights and fundamental freedoms
    - human survival and well-being
    - caring for our planet/sustainability

3. The 1974 Recommendation is applicable to formal, non-formal and informal education and to all levels, from pre-primary to higher and adult education and life-long learning. It concerns areas such as civics and ethics education, education for international understanding, solidarity and cooperation and/or other related subjects, such as peace education, human rights education or other areas of study that focus or include the teaching and learning of the above principles. Over time, these areas have evolved to include other topics[2] related to education on sustainable development, climate change, global citizenship, preventing violent extremism, or others, which are also closely related to the original principles of the 1974 Recommendation.

[1] These are principles that are included throughout the 1974 Recommendation and which are grouped here to guide the reporting process.
[2] These include topics that are closely related to the principles of the 1974 Recommendation and which are frequently mainstreamed in national education systems. They are also used as a reference in the questionnaire.

B. Reporting obligations

4. The General Conference, at its 18th session, "recommends that Member States submit […] reports concerning the action taken by them in pursuance of this recommendation". Moreover, in accordance with Article VIII of UNESCO's Constitution "Each Member State shall submit to the Organization […] reports […] on the action taken upon the recommendations and conventions referred to in Article IV, paragraph 4."

5. All Member States, given the political commitment to and moral force of the 1974 Recommendation and their reporting obligations, should provide information on legislative measures that have been taken pursuant to the 1974 Recommendation and the ways in which national education policies and programmes correspond to its provisions. Information supplied by Member States should demonstrate how laws and practices comply with the commitments under the 1974 Recommendation, describing legal norms as well as actual implementation.

II. How to fill in the questionnaire

- The following questionnaire has been updated to guide and assist Member States with their reporting. It aims to collect, in a simplified manner, information on the extent to which Member States have mainstreamed the principles of the 1974 Recommendation in their education systems, focusing on institutional, content, teachers, assessment, materials/resources, experiential opportunities and overall implementation issues. Responses to this questionnaire will be considered as the official national report for each Member State.

- Only one questionnaire per country should be submitted, which will represent the official country report.

- Member States with a federal system of governance are invited to provide information on the overall implementation of the 1974 Recommendation in the country rather than its implementation in each individual sub-national state, as appropriate. Space is also provided under question 29 for Member States to include any additional information they wish to share.

- Prior to completing the questionnaire, Member States are encouraged to organize necessary consultations within and outside the Ministry of Education/Government, including with key, relevant civil society partners to collect the information/data.

- Member States have two options for submitting the questionnaire:

  i. Online: the questionnaire can be completed and submitted online through this link;

  ii. Hard copy: the questionnaire can be completed electronically and the hard copy should be sent to the Assistant Director-General for Education, UNESCO. It is recommended that the questionnaire be filled by the Ministry responsible for education.
